Presentations

- Individual
- 10 - 15 minutes a piece
- demonstrate the following:
  - What requirements were you responsible for?
  - What technologies were used in your solutions?
  - What test cases you used to ensure solutions were sound?
    - These should be very precise. What data did you actually test it on.
  - A demo, and walk through of your implemented solution.
- In your team, whose projects does yours integrate with?
